

Powering your digital transformation through harmonized technologies.

Like music, technology is a positive experience when its harmonious. Like musicians, MajorKey masters a range of different technologies and makes them play nicely together for you.

MajorKey applies over 20 years of experience building and implementing simple, smart technology systems for our clients. We combine Enterprise Service Management, Multi-Cloud Operations, Identity Security, DevOps and Software Development capabilities to create a unified enterprise operation for your organization.

The result: We empower your people to deliver the innovation your business needs so your customers get what they want.

As partners and experts in world class technologies, we integrate them in a way that is scalable and coherent, so that you can focus on innovating—keeping your customers happy and driving growth.

When you choose MajorKey, you are getting a team of problem-solvers who have your best interests in mind for long-term success. We bridge the gap between what technology promises and what is delivered.

Our mission is to deliver on technology's promise to:

- Connect people
- Enhance experiences
- Accelerate innovation
- Drive growth

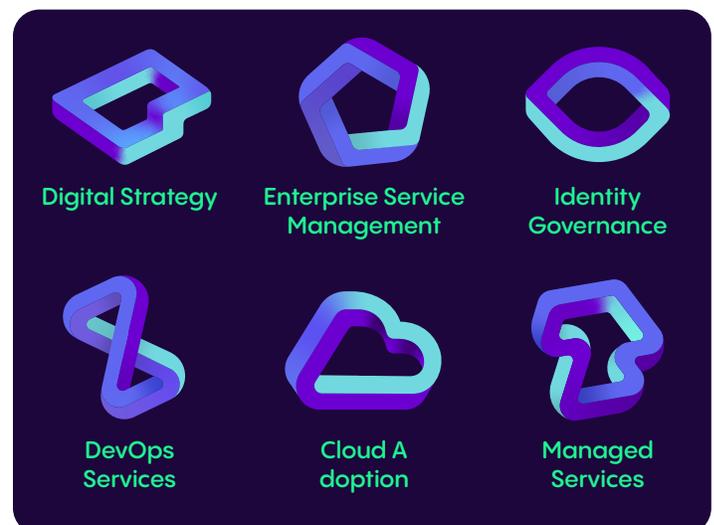

Objective and transparent guidance from the experts.

You are in control as we provide strategic, objective guidance aligned with your goals; intelligent choices about the right processes and technologies to deploy; and operational transparency to showcase progress, eliminate surprises and maintain accountability.

Bringing people, technology, and processes together to create exceptional customer experiences worth sharing.

Our Capabilities

Our services are designed to drive organizations forward and sustain competitiveness in today's rapidly evolving digital economy. Our support gives clients stability through secure and well-governed platforms, the agility to adapt and pivot, and the freedom to explore and exploit new opportunities.

We work with you to:

- Align stakeholders from across the business around new digital business workflows.
- Plan, design and implement better ways of working around a delegated governance model for multi-cloud IT operations.
- Realize the full potential of out-the-box, proven technologies—so you don't spend more than you need on digital transformation.
- Position you to stay agile now and into the future.

Our Technology Partners

We are experienced with a diverse range of technologies and ensuring they work well together. We are proud to be top tier partners with some of the world's leading innovators. They are known not only for their great products. They also share our goal of creating solutions that are fit for purpose and fit for growth.

We hold top-tier partnership status with the world's leading enterprise technology innovators, including Atlassian, Sailpoint, AWS, Okta, and AppDynamics.
